

CONTENTS OF VOLUME 1

J.D. Ebert	
Cell Differentiation today and tomorrow	1
S.E. Selvig, G.A. Greenhouse, P.R. Gross	
Cytoplasmic synthesis of RNA in the sea urchin embryo.	
II. Mitochondrial transcription	5
M. Stanisstreet, E.M. Deuchar	
Appearance of antigenic material in gastrula ectoderm after neural induction	15
P.J. Helmsing	
Induced accumulation of non-histone proteins in polytene nuclei of <i>Drosophila hydei</i> . II. Accumulation of proteins in polytene nuclei and chromatin of different larval tissues	19
R.M. Clayton, D.E.S. Truman, J.C. Campbell	
A method for direct assay of messenger RNA turnover for different crystallins in the chick lens	25
U. Clever, H. Bultmann	
Chromosomal control of foot pad development in <i>Sarcophaga bullata</i> . III. Requirement of RNA and protein synthesis for cuticle formation and tanning	37
G.G. Pearson, J. Ingle	
The origin of stress-induced satellite DNA in plant tissues	43
G. Spohr, K. Scherrer	
Differential turnover of two messengers in one cell type: 9S globin mRNA and 12S mRNA in differentiating avian erythroblasts	53
C.L.M. Poels	
Mucopolysaccharide secretion from <i>Drosophila</i> salivary gland cells as a consequence of hormone induced gene activity	63
J.A. Callow, M.E. Callow, H.W. Woolhouse	
In vitro protein synthesis, ribosomal RNA synthesis, and polyribosomes in senescing leaves of <i>Perilla</i>	79

H. Bloemendal, A. Zweers, F. Vermorken, I. Dunia, E.L. Benedetti The plasma membranes of eye lens fibres. Biochemical and structural characterization	91
J.B. Boyd, W.R. Logan Developmental variations of a deoxyribonuclease in the salivary glands of <i>Drosophila hydei</i> and <i>D. melanogaster</i>	107
J. Jacob, G.A. Danieli Electron microscope observations on nuclear pore—polysome association	119
J. Besson, V.R. Farashyan, A.P. Ryskov Base composition of the rapidly hybridizing sequences of the dRNA fractions	127
E. Boncinelli, F. Graziani, L. Polito, C. Malva, F. Ritossa rDNA magnification at the bobbed locus of the Y chromosome in <i>Drosophila melanogaster</i>	133
P. Nagley, A.W. Linnane Cellular regulation of mitochondrial DNA synthesis in <i>Saccharomyces cerevisiae</i>	143
A. Oikawa, M. Nakayasu, C. Claunch, T.T. Tchen Two types of melanogenesis in monolayer cultures of melanoma cells	149
I. Pucci-Minafra, C. Casano, C. La Rosa Collagen synthesis and spicule formation in sea urchin embryos	157
R. Meneghini, M. Cordeiro DNA replication in polytene chromosomes of <i>Rhynchosciara angela</i>	167
S. Schorderet-Slatkine Action of progesterone and related steroids on oocyte maturation in <i>Xenopus laevis</i> . An in vitro study	179
W.P. Gijzel, M. Strating, A.M. Kroon The biogenesis of mitochondria during proliferation and maturation of the intestinal epithelium of the rat. Effects of oxytetracycline	191
T. Tidwell, E. Howard The thiolation, methylation, and formation of pseudouridine and dihydrouridine in tRNA of regenerating rat liver, human phytohemagglutinin stimulated lymphocytes, and Novikoff ascites cells	199
R. Landesman Ribosomal RNA synthesis in pre- and postgastrula embryos of <i>Xenopus laevis</i>	209

S.M. Gartler, R.M. Liskay, B.K. Campbell, R. Sparkes, N. Gant Evidence for two functional X chromosomes in human oocytes	215
A. Fantoni, S. Bordin, M. Lunadei Control of ribosomal RNA maturation in differentiating yolk sac erythroid cells	219
W. Nagl, J. Hendon, W. Rücker DNA amplification in <i>Cymbidium</i> protocorms in vitro, as it relates to cytodifferentiation and hormone treatment	229
C. Frati, I. Covelli, R. Mozzi, L. Frati Mechanism of action of the epidermal growth factor. Effect on the sulfhydryl and disulphide groups content of the mouse epidermis during keratinization	239
S.A. Limborska, G.P. Georgiev On the role of chromatin proteins in the restriction of RNA transcription in vitro	245
G.M. Malacinski Identification of a presumptive morphogenetic determinant from the amphibian oocyte germinal vesicle nucleus	253
L. Felicetti, S. Metafora, R. Gambino, G. Di Matteo Characterization and activity of the elongation factors T1 and T2 in the unfertilized egg and in the early development of sea urchin	265
V. de León, W.K. Yang, J.L. Sirlin Isoaccepting histidyl-tRNAs in the mouse placenta	279
M. Gross, E. Goldwasser On the mechanism of erythropoietin-induced differentiation. X. The effect of thymidine suicide on erythropoietin-respon- sive cells	287
D.C. Barker, L.S. Swales Characteristics of ribosomes during differentiation from trophozoite to cyst in axenic <i>Entamoeba</i> sp.	297
D.C. Barker, L.S. Swales Comparison of trophozoite helical polysomes with cyst ribosomogen microcrystals in axenic <i>Entamoeba</i> sp.	307
J.P.G. Williams Interrelation of epithelial glycogen, cell proliferation and cellular migration with cyclic adenosine monophosphate in epithelial wound healing	317

C.C. Wylie

- Nuclear morphology and nucleolar DNA synthesis during
meiotic prophase in oocytes of the chick (*Gallus domesticus*) 325

J.N. Timmis, J. Sinclair, J. Ingle

- Ribosomal-RNA genes in euploids and aneuploids of hyacinth 335

R. Harlow, P. Tolstoshev, J.R.E. Wells

- Membrane — a major source of chromatin-associated RNA and
non-histone proteins in avian erythroid cells 341

S.P. Modak, H. Traurig

- Appearance of strand breaks in the nuclear DNA of terminally
differentiating vaginal epithelium 351
